OUR SIGNATURE TREATMENT FOR YOU – THE BALANCE

The balance – the holistic massage for body, mind and soul.

A human being should always be regarded in a holistic matter, from the unity of body, mind and soul. This is why the „Balance Massage“ is a wonderful and unique treatment to release tension and distress.

On a physical level, tensions in the muscles can be eased to allow for more elasticity and better mobility again. On the spiritual and soul level, tensions can be dissolved wonderfully through fine vibrations - which are produced with the sound couch and the singing bowls.

OUR SIGNATURE TREATMENTS

TIME OFF FOR BODY, MIND AND SOUL – OUR ENERGY SOURCES FOR YOU

THE PATH TO SELF HEALING

To restore the balance of the trinity - body, mind and soul - we first test the functionality of your energy body.

Then, with the help of energy and chakra work (with hands, gemstones, singing bowls and tuning forks), we stimulate the body's self-healing powers, which ensures harmony and well-being on both an energetic and physical level.

80 min | from 119,00 €

THE SOUND OF HAPPINESS

Take a soothing rest on our sound lounge.

The vibrations are transferred to the body when played. The sound vibrations are experienced with all your senses and leave you with a pleasant and healing deep relaxation. Tibetan singing bowls and tuning forks tuned to planetary vibrations can support the arrival in „being“.

50 min | from 75,00 €

HOLISTIC PULSING

With gentle movements - pulsating - the whole body is brought into vibration. Our cells remember the primordial vibration - primordial trust. Pulsing is very calming and deeply effective. Thus blockages of all kinds have the possibility to be released and dissolved.

Holistic Pulsing is also a perfect method during pregnancy, as the child still carries this primal vibration within itself.
